

FUSION PRO SOLDERING STATION

NEW 2020 !

**80W
PRO VERSION**

HRC 240V / 50W "FUSION PRO" Soldering Station

HRC4092P HRC 240V / 80W FUSION PRO Soldering Station

The HRC Racing **FUSION PRO** soldering station is suitable for professional and frequent soldering work. With an output of 80 watts, the station heats the soldering tip to operating temperature in just a short time. As soon as the operating temperature is reached, an internal controller reduces the power and keeps the temperature constant. This function also protects the components of the soldering iron.
